Dear Doctor

This letter is written on behalf of the Council of the World Transplant Games Federation and the Organising Committee of the World Transplant Games to be held on the Gold Coast in August 2009. The organisers and the transplant athlete wish to thank you for your consideration, time and judgement which is required to fill in the athlete's medical certification. Your transplant recipient's progress and health is dependent upon your support and their involvement in sporting activities. The athlete's participation in the games is dependent upon the details you provide in the medical certificate. Without your medical certificate the athlete is not permitted to compete.

In addition, the athlete would not be permitted to compete if they are suffering rejection, renal failure, anaemia, immunosuppression instability, hypertension, cardiac arrhythmia or infection. The World Transplant Games Councillors, the Team Manager and the athlete treasure your support.

Thank you in anticipation.

Yours sincerely

A handwritten signature in black ink, appearing to read "Daryl Wall".
